

Introducing the

Connecting Communities Online Discussion Forum

Our Goal:

The Connecting Communities Discussion Forum provides a space for communities to discuss, strengthen, and build community-based systems of services for children and youth with special health needs and their families. Each discussion forum will allow you to:

- Make connections with others
- Share challenges in your communities
- Find potential solutions
- Bring new ideas to the table

The ideas and concerns generated during the discussion forum will be made available in future issues of the ChampionsInc newsletter, articles and reports that will be available for your use.

Champions for Inclusive Communities (ChampionsInc) is a national leadership and resource center designed to support states and communities in organizing services so families of children and youth with special health care needs (CYSHCN) can use them easily and families are satisfied with what they receive.

Let's get started....

Just visit our website at <http://www.championsinc.org> for all the discussion information you need. You will find the dates and topic of our first discussion. You can also sign up for our e-newsletter, which will keep you updated about up-and-coming discussions as well as information about funding opportunities, community resources, national organizations with a community focus, and more.
